ONE LIBERTY PROPERTIES REPORTS FIRST QUARTER 2017 RESULTS

- Rental Income Increases 11.3% over Prior Year Quarter –
 Net Income of \$0.15 Per Diluted Share –
- AFFO Per Diluted Share Increases 15.9% over Prior Year Quarter –

GREAT NECK, New York, May 9, 2017 — One Liberty Properties, Inc. (NYSE: OLP), a real estate investment trust focused on net leased properties, today announced operating results for the quarter ended March 31, 2017.

Patrick J. Callan, Jr., President and Chief Executive Officer of One Liberty stated, "Operating results continue to reflect our disciplined approach to portfolio management. During the first quarter, we benefitted from the accretive property additions made over the past year as adjusted funds from operations per diluted share grew 15.9% on a 13.5% improvement in total revenues. As we look forward, our portfolio is well positioned to drive continued growth which should result in higher cash flow as we move through the year and be additive to our efforts to enhance stockholder value."

Operating Results:

Rental income grew 11.3% to \$16.8 million for the three months ended March 31, 2017, from \$15.1 million in the corresponding quarter in the prior year, and total revenues for the current quarter increased \$2.2 million, or 13.5%, to \$18.5 million, from \$16.3 million for the quarter ended March 31, 2016, primarily due to properties acquired in 2016.

Total operating expenses in the first quarter of 2017 were \$11.2 million compared to \$9.3 million for the same period in 2016. Approximately \$1.4 million of the increase is due to additional depreciation and amortization, of which \$750,000 is associated with the properties acquired in 2016 and \$646,000 relates to the write-off of tenant origination costs. The Company also incurred an additional \$354,000 of real estate expenses related to 2016 acquisitions.

Net income attributable to One Liberty in the first quarter of 2017 was \$2.9 million, or \$0.15 per diluted share, compared to \$3.3 million, or \$0.18 per diluted share, in the first quarter of 2016. Net income for the 2016 quarter includes a \$787,000, or \$0.04 per share, gain on the sale of real estate.

Funds from Operations, or FFO, was \$8.6 million for the quarter ended March 31, 2017, compared to \$6.9 million in the corresponding quarter of 2016, with FFO per diluted share increasing 17.5% to \$0.47 for the first quarter of 2017 from \$0.40 in the same quarter of the prior year.

Adjusted Funds from Operations, or AFFO, was \$9.4 million for the quarter ended March 31, 2017, compared to \$7.5 million in the corresponding quarter of the prior year, with AFFO per diluted share growing 15.9% to \$0.51 from \$0.44.

The weighted average number of shares of common stock outstanding during the first quarter of 2017 increased by 1,391,000 shares from the first quarter of 2016 due to stock issuances pursuant to One Liberty's at-the-market offering, dividend reinvestment and equity incentive programs. A reconciliation of GAAP amounts to non-GAAP amounts is presented with the financial information included in this release.

Balance Sheet:

At March 31, 2017, the Company had \$13.2 million of cash and cash equivalents, total assets of \$723.9 million, total debt of \$396.8 million, net of \$4.8 million of deferred financing costs, and total stockholders' equity of \$288 million.

At May 2, 2017, One Liberty's available liquidity was \$99.6 million, including \$4.6 million of cash and cash equivalents (net of the credit facility's required \$3 million deposit maintenance balance) and upon attainment of borrowing base levels, up to \$95.0 million available under its credit facility.

Subsequent Event:

As previously reported, on May 8, 2017, the Company sold its vacant Greenwood Village, Colorado property for \$9.1 million and an approximate \$6.5 million gain, which will be recognized in the three months ending June 30, 2017.

Non-GAAP Financial Measures:

One Liberty computes FFO in accordance with the "White Paper on Funds From Operations" issued by the National Association of Real Estate Investment Trusts ("NAREIT") and NAREIT's related guidance. FFO is defined in the White Paper as net income (computed in accordance with generally accepted accounting principles), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization (including amortization of deferred leasing costs), plus impairment write-downs of depreciable real estate and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. One Liberty computes AFFO by adjusting from FFO for straight-line rent accruals and amortization of lease intangibles, deducting lease termination fees and gain on extinguishment of debt and adding back amortization of restricted stock compensation, amortization of costs in connection with its financing activities (including its share of its unconsolidated joint ventures) and debt prepayment costs. Since the NAREIT White Paper does not provide guidelines for computing AFFO, the computation of AFFO may vary from one REIT to another.

One Liberty believes that FFO and AFFO are useful and standard supplemental measures of the operating performance for equity REITs and are used frequently by securities analysts, investors and other interested parties in evaluating equity REITs, many of which present FFO and AFFO when reporting their operating results. FFO and AFFO are intended to exclude GAAP historical cost depreciation and amortization of real estate assets, which assumes that the value of real estate assets diminish predictability over time. In fact, real estate values have historically risen and fallen with market conditions. As a result, management believes that FFO and AFFO provide a performance measure that when compared year over year, should reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs and other matters without the inclusion of depreciation and amortization, providing a perspective that may not be necessarily apparent from net income. Management also considers FFO and AFFO to be useful in evaluating potential property acquisitions.

FFO and AFFO do not represent net income or cash flows from operating, investing or financing activities as defined by GAAP. FFO and AFFO should not be considered to be an alternative to net income as a reliable measure of our operating performance nor as an alternative to cash flows as measures of liquidity. FFO and AFFO do not measure whether cash flow is sufficient to fund all of the Company's cash needs.

Management recognizes that there are limitations in the use of FFO and AFFO. In evaluating the Company's performance, management is careful to examine GAAP measures such as net income and cash flows from operating, investing and financing activities.
